

Your journey begins with 12 clues. Your team's goal is to decipher the locations of the 12 QR codes from the clues, retrieve the questions from each code, and show a suitable amount of work that leads to each of your answers. Checking the sum of your answers by reading the code at the 13th location will, most likely, validate your efforts.

This quest is worth a total of 24 points (4 more than the typical Investigative Task), or 2 points per correct answer. Since there will not be an opportunity for a point recovery handout after the Unit X Test, a bonus point system for each period will be implemented based on the order in which the quests are turned in as well as the quest scores.

<u>Order/ Scores</u>	<u>Points per Team Member</u>
First	5
Second	4
Third	3
Fourth	2
Fifth	1

This BYOD activity has been authorized by the administration of MHS. All faculty and staff has been notified of this activity. It is each students' responsibility to have the correct identification present when using your electronic device during school hours.

The final due date whether your team has completed the quest or not is 2/17/14.

Note: All answers were rounded to the thousandths digit when computing the sum.
